## **CatSassTattoo - Aftercare Instructions**

**Congratulations on your forever art piece!**

***To ensure a healthy healed tattoo, please follow these aftercare instructions.***

Leave your breathable bandage on for 24hrs min up to 3 days.

You can expect to see ink and other natural body healing fluids collect during this time under your bandage. Be sure your hands are clean when ready to remove your bandage and apply balm.

Be sure to wipe clean your tattoo with witch hazel because it cleans and soothes and promotes healing.

Keep your tattoo hydrated with balm provided for the next 3-10 days.

As your tattoo heals, scar tissue and some light sluffing (inked scabbing) will occur.

Minimize this with balm. Do not let your tattoo dry out while healing!

**RESIST THE ITCH.**

Scratching and picking can damage your healing skin/tattoo so don't do it!

If its itchy - its healing! Sooth the itch with balm.

- Do not submerge your tattoo in ANY body of water for the next 3 weeks.
- DO NOT SHAVE over your freshly heal(ing) tattooed skin or exfoliate for the next 2-3 weeks minimum.
  - Keep out of the sun for the next 2-3 weeks minimum.

Even Though your tattoo seems healed after 2-3 weeks on the surface, it is still going through its healing process and can take up to 6 months to be considered "fully healed". Maintaining a healthy aftercare routine will ensure a long lasting, beautiful forever piece.

Once healed, it is perfectly natural for your tattoo to need a touch up. Take a clear picture of your entire tattoo and send an email to [catsasstattoo@gmail.com](mailto:catsasstattoo@gmail.com) to book your free touch up session!
